A Summer Long Development Sprint:

Welcome to El Toro's Co-Op & Developer Internship program, **Running with the Bulls**. As the Spanish do, we are offering an exhilarating, adrenaline filled, fast paced experience with the goal to push you for ahead of the industry status quo, i.e. the bulls. It is our mission to invite some of the best minds in Louisville to join forces with our team for a once in a lifetime experience. This program has been designed to give students a first-hand encounter in working with one of Louisville's top ad tech companies where interns will engage in teams tackling complicated problems in a collaborative atmosphere.

El Toro is happy to partner with local universities that offer students the opportunity to gain work experience in-field with hands-on training and development that will be guided by one of the greatest DEV teams in the state.

Here's why Running with the Bulls is the right Co Op/Internship for you:

- Creating solutions that will be used in the Ad Tech world

- Unlike other internships, where you just do grunt work to learn, Running with the Bulls is like being tossed into the fire pit – it's just our style.

- You will get an opportunity to get to work on Next Generation Production Ready projects with senior developers in a hack-a-thon style learning environment

- An opportunity to work with a variety of technologies, stacks, and learn in a fast-paced environment.

- Gives our developers the opportunity to show their bravado and stay ahead of the cattle of normal developers.

Program Details:
Group: Summer Co-Op 2017 / DEV Internship
Date Range: Monday, May 8 – Friday, Aug 18
Total Weeks: 15 Weeks

Program Details:

Program Schedule & Hours:
Due to the nature of the program we have built, we will need all participants on the same schedule. See the hours below:

Monday - Friday: 8:30am – 5:30pm (a lunch hour is included in the hours already)

Dress Code:
We would like comfortable attire, but keep it casual. Just no holes or tears in your clothing.

Computer Use:
Knowing most developers have specific programs and tools already downloaded and setup for use on their personal machine, we feel it would be best if you brought your own computer during the intership. If you do not have a machine to use, it is your responsibility to reach out to have one requested one month prior to the start date.

Pay Days & Time Sheets:
During this program, you will be paid at the end of each week. We will require time sheets to be filled out and submitted at the end of each week.

Parking Info:
El Toro will provide a $30 credit to each person to assist with parking costs. There are multiple options for parking, but you will be responsible to find parking prior to the start of the program. The $30 credit will be included in ONE of the weekly checks. Here are some resources you can use to secure parking:

El Toro's address is **124 North First Street, Louisville, KY 40202**. We suggest the Cobalt Lot that is managed through Riverside Parking and their cost is $60 per month, but that's just our suggestion. Parking is first come first served, based on availability.

- http://riversideparking.com/

We suggest the Cobalt Lot that is managed through Riverside Parking and their cost is $60 per month.

Required Docs: W9 & Contract Agreement:
You will receive an email from El Toro prior to your start day that will contain a W9 & an El Toro Contractor's Agreement which will need to be e-signed and submitted.

NOTE: As a temporary employee of El Toro, you will receive your weekly pay, but it will not be taxed. It will be your responsibility to report your pay accordingly.

U of L Co Op Reports:
For the co op students, there will be documentation required by the university to be filled out and submitted according to their guidelines and dates. It will be the responsibility of each student to get any/all documentation signed and submitted.
